

GEORGIA'S NATURAL REGIONS

Level: **Grades 3-5**

Length: **45 minutes**

PROGRAM DESCRIPTION

Discover the history and diversity of our state's regions and their unique natural resources. Through discussion, demonstration and a live animal presentation, students are entertained and enlightened as they learn about our remarkable state and its ecosystems.

CURRICULUM CORRELATIONS

Students will:

1. Learn the geography and basic features of Georgia's natural regions. **S3L1**
2. Examine basic geologic principles that shaped the state. **S3E1c; S5E1a**
3. Look at some common plants and animals found in the regions and their relationship to the landscape. **S3L1b,c**

ESSENTIAL QUESTION

How does *where* an organism lives relate to *how* it lives?

PROGRAM VOCABULARY

Adaptation	Biodiversity	Ecosystem	Erosion	Uplifting
------------	--------------	-----------	---------	-----------

ASSOCIATED VOCABULARY

Camouflage	Carnivore	Continental Plate	Geology	Herbivore
Igneous	Metamorphic	Omnivore	Pangaea	Sedimentary

ADDITIONAL RESOURCES

Access to additional resources, including pre- and post-program activities will be available through Fernbank's virtual learning platform, Moodle.com. You will be provided registration access prior to your program date to establish your Moodle account.
